

Hrvatski Geološki Institut (HGI-CGS)

Decision support systems (DSS) for offshore windfarm siting

HGI-CGS does not currently use DSSs in relation to offshore windfarm siting and has no experience in the field of offshore windfarm siting. They do however state the use of GIS to analyse parameters.

Input parameters mentioned in the figure may comprise multiple sub-parameters. For more information on the input parameters see Larsen et al. (2025; Table 3, p 27).
