FORECASTING AND ASSESSING EUROPE'S
STRATEGIC RAW MATERIALS NEEDS

DELIVERABLE D5.3

Energy critical metals and minerals in Europe; occurrence, types, characteristics, formation, and future potential for European production (part 2 data).

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 731166

Deliverable D5.3

Energy critical metals and minerals in Europe; occurrence, types, characteristics, formation, and future potential for European production (part 2, data).

Project:	Forecasting and Assessing Europe's Strategic Raw Materials needs

Part 2 List of occurrences

Part 2 of the deliverable D5.3 consists of the a list of occurrences, that represents the raw data supplied to the project from the participants based on the requirements decided on at project start.

This data list is intended for reference only, the same data are accessible from interactive maps that can be found here, under Mineral Categories:
