

GENERAL INFORMATION	
Parameter name	Other groundwater use
Name of the layer in EGD Map Viewer	Other groundwater use, Prague
Original name of the layer in the GeoPackage uploaded to EGD database	PP05_CGS_other_groundwater_use
Category	Limitation of use
Definition	Wells used for the exploitation of the groundwater for purposes different from shallow geothermal energy.
Harmonized unit	None
Relevance for shallow geothermal energy	Location of active wells used for other purposes than shallow geothermal energy, which might restrict the installation of shallow geothermal energy systems.
Data type	Discrete labels
Data format	vector: points
Projection	EPSG: 3034
Dataset selected for pilot area	Aarhus, Brussels, Cork, Linköping, Prague , Warsaw, Zaragoza

ATTRIBUTES	
Active_well_type	Discrete data classes based on a joint legend: <ol style="list-style-type: none"> 1. drinking water supply 2. exploitation 3. observation 4. Other 0. no information available
Active_well_type_URI	Link to definitions, e.g., INSPIRE, project vocabulary, etc.
linkdataurl	Link to data or additional information about the data, e.g., link to national databases (text)
remark	Free text for additional information (text)
repositoryurl	Link to this factsheet (text)

DATA SOURCE	
Pilot area	Prague
Data source	T. G. Masaryk Water Research Institute, Public Research Institution, https://www.vuv.cz/index.php/en/
Contact data owner	info@vuv.cz
Last Update	jaroslav.rihosek@geology.cz 03/02/2021

Explanatory text English

This dataset contains the locations of observation wells for quantitative and qualitative monitoring of groundwater, wells used for water supply (e.g., communal use, industry, etc.), and the other active wells reported up to 30/09/2019.
